

Steff Kerr

NHS Recovery Coordinator

Citywide Naloxone Peer
Supply Model 2017

North East Recovery Community Naloxone Peer Educators

- May 2014 - Ten NERC peers complete 4 day training for trainers with SDF
- Delivered training in CAT clinics, residential and community rehabs, homeless services and recovery community.
- Monthly planning meetings
- June 2014-June 2015 – Trained 361 individuals with 231 kits supplied
- Monthly average of 30 trained with 20 kits supplied

Regulation Change October 2015

- “People employed or engaged in the provision of drug treatment services can, as part of their role, supply naloxone that has been obtained by their drug service to others, as long as it is supplied for the purpose of being available to save life in emergency. A prescription is not needed for the naloxone to be supplied in this way.”

(Source: Public Health England)

Timeline for Naloxone Peer Supply Model

- Regular planning meeting over the past year
- 2nd June 2017 - Agreed we were ready to begin the recruitment process for ten peers for the pilot
- 19th June - Closing date for peer applications
- Interviews held on 22nd June and 5th July
- 18th July – New Naloxone Framework and NEO training for peers
- July/August – Purchase tablets, mobile phones, hoodies, rucksacks and storage for naloxone kits. Update PVG's and request references.
- 16th Aug – Peers attend Naloxone refresher training at SDF and official launch of Peer supply pilot

Citywide Naloxone Peer Supply Launch – 16th August 2017

Naloxone Figures

- In 2014 NERC Naloxone peer educators trained 361 individuals and 231 kits where supplied (Average of 30 trained and 20 kits per month)
- Figures for April, May and June 2017 – 91 individuals trained with 65 kits supplied
- Peer supply model figures from 21st -25th August – 35 individuals trained with 57 kits supplied (That equates to one month's training and three month's kit supply in a five day period).

NEO database statistics

- 35 trained =18 female and 17 male
- 26 at risk of overdose with 9 likely to witness an overdose
- 4 individuals have overdosed within last 6 month's
- Risk factors identified:
 - 17 Reduced tolerance/future risk (e.g. ORT, detox, abstinence)
 - 9 Polydrug use

Plans for September

- Overdose awareness event
Friday 1st Sep 2017, 1-4pm
Bridgeton Community
Learning Campus
- September Recovery Month
